In re Application of: Simon Nicholas Richmond

Serial No.: 10/789,488

Filed: 02/26/2004

Entitled: **A Solar Powered Light Assembly To Produce Light Of Varying Colours**

I discussed your proposed amendments to Claims 1 and 20 with the inventor. He was concerned that these amendments may be unduly limiting. For this reason he asked that you considering amending Claims 1, 7 & 20 as shown in the attachment. Briefly, the inventor proposes amending Claim 1 to recite that the body includes a spike, and to omit the reflector limitation. In addition, the inventor proposes amending Claim 20 to recite that the body includes a spike, that the lens is connected to the body, and to omit the term on/off. The inclusion of the term on/off in Claim 20 appears to be a clerical error since several of the dependent claims specify that the switch is an on/off switch (e.g., Claims 22, 24, 26 and 28). Please let me know whether the inventor's proposed amendments to Claims 1, 7 & 20 are acceptable to you.

Best regards,

Christine Lekutis
